PREAMBLE

The technical requirements for *iNTELLECT* are outlined below. The following must be provided by the Presenter unless otherwise agreed to in writing.

The Company will be as flexible as possible to accommodate the needs and/or limitations of the venue, without affecting the artistic quality of the play. If things need to be adjusted, the Company Contact or Technical Contact will make the final decision.

The venue's Technical Director/Key Contact must contact the Company's Technical Contact to discuss any and all changes to the Technical Rider, which must be approved by the Company's Technical Contact before the Engagement Contract can be fully executed. All changes to the Technical Rider must be agreed to in writing.

It is understood that the Technical Rider is an integral part of the Engagement Contract and no Engagement Contract will be considered complete without a signed Technical Rider.

VENUE REQUIREMENTS

Stage Requirements:

- Minimum stage dimension of 10' deep x 10' wide is required (performance uses both front and rear projection)
- The performance requires access to the audience from the playing space. Stage must be level and free of any obstructions.
- Each performance requires a sound check, projector check

AUDIO

Company provides:

- Show file on USB drive

Presenter provides:

- 1 MacBook Pro, MacBook Air, or Mac Mini/equivalent desktop with peripherals
- 1 Mixing Console capable of delivering the Line signals from the Video playback, Wireless receiver, and Stereo Playback inputs to a PA System tuned for robust, even coverage of the entire audience area and, where appropriate, to monitors onstage and the Sound Control booth. If a mixing

- console is unavailable, a replacement with at least four available line inputs should be available. A wireless mic should also be available.
- 1 Video playback audio line running from the Video playback computer (either stereo or mono, preferably balanced)
 - 1 Wireless transmitter, with a fresh pair of Alkaline AA batteries for the Rehearsal and Performance

LIGHTING

Presenter provides:

- standard stage lighting that can be adjusted

PROJECTION

Presenter provides:

- A wide angle projector capable of producing an image rear projected from the screen placed on the plot.
